

LOCAL GOVERNMENT REORGANISATION

Since Government announced its decision in July 2021, work has been ongoing developing a transition plan.

All seven local authorities, supported by the Department for Levelling Up, Housing and Communities, are collaborating on the complex operation to create the two new authorities. This entails a considerable amount of work to ensure that people in Cumbria receive the high level of service and delivery they expect and deserve.

A new website - <https://newcouncilsforcumbria.info/> - explains the transition programme and lots of other background information.

The website also holds all the latest public information on that work and the next steps, so please return regularly for updates.
